Herd management for the 21st century

www.bovisync.com
What is BoviSync?

• Herd management software for dairy and beef operations of any size

• The software is customized to your dairy allowing you to improve management while increasing productivity.

• Cloud based so your records are safe and accessible.

www.bovisync.com
About us…

• Our team:

BoviSync was developed by a team with education and experience in dairy, as well as engineering, agricultural machinery, agronomy, agricultural research, and farm management.

The team includes experts in dairy nutrition, reproduction, herd management, and a veterinarian.

www.bovisync.com
About us…

Our mission:

• To improve livestock production, by providing dairies with state-of-the-art management software

• To work with farmers to discover the most effective management practices at the animal, herd, and regional levels.
The features...

- Cloud based
- Accessible and Safe
- Easy and Powerful
- Flexible, Customized to your Farm

www.bovisync.com
The features...

• Save Time

• Improve accuracy

• Powerful reporting

www.bovisync.com
The features...

• Protocol system and entry logic

• Reporting across multiple sites

• Transactional

In last 4 weeks:
8% of herd with Mastitis
5% of mastitis cows died

Started looking at the parlor performance by shift and unit for past 30 days
Units 11 & 12 pulsation failed 10/28

Units 24&25 pulsation failed 11/1
Dealer finally gets around to replacing boards — 12/7 4pm

Pulsation tested and found to be the problem, Dealer called 12/3

Thank you!!!
What DC305 can do that BoviSync can’t…

• We can’t own your data
• We can’t sell your data
• We can’t delete your parlor records
• We can’t enter a cow as pregnant without a breeding
• We can’t mess up your sync date (SYDAT)
